Some Questions

There is documentation for developers and just a little information for a general user like FAQ, rewards information, and information on governance. However, everything is quite readable (even if it was meant for devs only).

Some Questions

The dYdX Chain, also known as "v4," is meticulously crafted for total decentralization throughout its entirety. Its key elements encompass the protocol, the Indexer, and the user interface. All these components are accessible as open-source software, independently operated without involvement from dYdX Trading Inc.
